

REGENT OF BRUNSWICK

Marries Princess Elizabeth of Stolberg-Rossla—Many Handsome Presents Received.

(Herald Special.)

Berlin, Dec. 15.—The marriage of Duke Johann Albrecht of Mecklenburg-Schwerin, regent of Brunswick, and Princess Elizabeth of Stolberg-Rossla, took place today at Wernigerode, Prussian Saxony. In the presence of many members of royal families, and a great gathering of other distinguished persons.

Handsome presents were sent to the bridal couple by Emperor William, with whom Duke Johann has always been an especial favorite. For many years the duke made his home at Potsdam, and was the senior major of the regiment of hussars which the emperor himself commanded in person up to the time of his accession.

Duke Johann was born in 1858 and has been regent of Brunswick since 1907, when his election by the Brunswick diet settled the long controversy over the succession to the throne, which was claimed by the Duke of Cumberland, who was the rightful heir to the last Duke of Brunswick.

Princess Elizabeth, the bride of Duke Johann, was born at Rossia, June 23, 1885. Duke Johann's first wife, who was Princess Elizabeth of Saxe-Weimar Eisenach, died about two years ago.

Ill Health Is More Expensive Than Any Cure.

This country is now filled with people who migrate across the continent in all directions seeking that which gold cannot buy. Nine-tenths of them are suffering from throat and lung trouble or chronic catarrh resulting from neglected colds, and spending fortunes vainly trying to regain lost health. Could every sufferer but undo the past and cure that first neglected cold, all this sorrow, pain, anxiety and expense could have been avoided. Chamberlain's Cough Remedy is famous for its cures of colds, and can always be depended upon. Use it and the more serious diseases may be avoided. For sale by Bratton Drug Co.
